RESPONSE

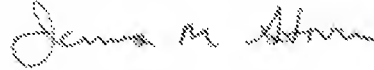

Restriction of Invention

The following election is made in response to the Restriction Requirement dated S February 27, 2006, wherein the Examiner required a restriction to one of the following invention species:

- I. Claims 1-30, drawn to an access management subsystem adapted to further insert data from temporary tables into a target table and to make the target table available for execution of database queries.
- II. Claim 31, drawn to a storage medium containing instructions for migrating data from a first source table in a first database system to a second database system, and inserting rows of temporary tables into a target table in the second database system.

In response to the requirement for restriction, Group I is elected and claims 1-30 are submitted to be examinable with the elected Group.

Respectfully submitted,
